JAPAN IS OUR ALLY

Understanding Exists Between the Two Countries

THEY WILL TRY TO CONTROL COMMERCE OF THE ORIENT

Washington, Sept. 15—Special—As predicted in these dispatches yesterday the president and cabinet, at the meeting yesterday afternoon, decided to retain possession of the Philippine islands. The influences that have led to this decision are commercial rather than political. Our trade with China and Japan has largely increased of late years, and the need of a half way station, available as a harbor of refuge and coaling point, has long been greatly felt. The Philippine group supplies this want. In addition Japan has asked that the United States retain the islands, as her interests will be safer in American than in Spanish hands. It has been President McKinley's desire ever since he assumed the presidency to extend our commerce to every part of the world. The present is an opportunity to further that desire that might not again present itself during the life of the nation. Accordingly the commissioners to the Paris conference will be instructed to insist upon the cession of the entire island of Luzon, if not the entire group, to the United States. If the right to possess them by virtue of conquest is denied it will be insisted upon as a just indemnity for the cost of the war into which this country was forced by the acts of Spain.

A Diplomatic Dinner.

Washington, Sept. 15—Special—Over the wines and walnuts this evening the nation's policy in the settlement of the disputes with Spain will be decided upon. The general peace commissioners and the cabinet will join the president at dinner in the white house, and here matters of grave concern will be discussed. The gathering will be in some respects the most notable in the nation's history, for here will be determined whether or not the policy of territorial expansion will be pursued. There is little room to doubt that at this dinner the peace commissioners will be armed with general instructions on the subject and fortified with arguments and facts that will be of great value to them in their consultations with the Spanish diplomats at Paris. From this dinner will doubtless be dated the inauguration of a national policy that will extend the political and commercial influence of the United States to every part of the world.

Washington, Sept. 15—Special—All members of the peace commission will be in the city tonight to attend the dinner given in their honor by the president.

The Third Wisconsin.

In Camp near Coamo, Porto Rico, Sept. 15—Special—The Third Wisconsin regiment is still "slated" for a march across the island to San Juan, but in the light of recent developments it is very doubtful if the command goes anywhere except back to Ponce. This assumption is based mostly on the large list of sick, which is piling up. Yesterday the Third Wisconsin had 378 cases of sickness on record, this figure including sick in quarters, sick in hospital here, and absent sick, the latter meaning sick in some hospital in the states. Of the "present sick" there are 104 cases in the brigade hospital and balance in quarters.

Troops From Porto Rico.

New York, Sept. 15—Special—The transport Concho arrived from Porto Rico this morning with Gen. Wilson and a portion of Miles's army aboard. The health of the men is good. On board were Gen. Wilson and staff, a detachment of engineers, Battery A, Missouri volunteers, Twenty-seventh Indiana volunteer battery.

The Investigating Committee.

Washington, Sept. 15—Special—Six commissioners have been secured to investigate the war department—Gen. Schofield, Gen. Greenville Dodge, Prof. D. C. Gilman, Col. James Sexton, Charles Denby and Evan Howell.

Miles Takes to Bed.

Washington, Sept. 15—Special—Gen. Miles was forced to take his bed this morning, a slight fever contracted in Porto Rico having become worse. No serious results are anticipated.

INTERRED WITH MILITARY HONORS

CLARK F. OSGOOD'S FUNERAL HELD THIS AFTERNOON

Impressive Exercises At the Home And the Congregational Church—Many of His Old Comrades in Arms Were Present—Tribute to His Memory.

From the Congregational church at 2 o'clock this afternoon services were held over the remains of the late Clark F. Osgood, of Afton, a private in Co. E, First Wisconsin Regiment, who died of typhoid fever at Jacksonville, Fla. For fear that the body might be the means of communicating the disease, the coffin was not taken into the church, but was removed from the hearse and allowed to remain on standards on the sidewalk, where it was viewed by sorrowing relatives and many friends. The body was in good condition, the casket containing the remains being draped with the national colors, while across the breast of the military uniform was the stars and stripes.

Impressive Services While the coffin rested in front of the sacred edifice services were being held within conducted by Rev. W. F. Brown, of Beloit, assisted by Rev. Robert C. Dennison, pastor of the church. Long before the hour of the services sorrowing friends began to arrive and by the time the funeral party made its appearance every available inch of space was occupied. Many were present from out of the city, Beloit and Afton being well represented. Rev. W. F. Brown in his remarks paid a glowing tribute to the deceased and spoke of how as a soldier to his beloved land he had sacrificed his life.

The remarks of Rev. Mr. Denison also brought tears to the large congregation. The floral offerings were beautiful, and fairly hid the casket from view. Services were first held from the Fourth avenue home of George Ferris at 1:30 o'clock, and from the church at 2 o'clock. When the funeral procession took up its march from the church, the spectacle was a most imposing one. Full military honors were given deceased.

Old Comrades Present. Members of Co. E, Beloit, of which deceased was a member, were here in full uniform, as were also members of the Beloit Relief Corps, who came overland in carryalls. The local Y. M. C. A. band turned out, as did members of Co. A, W. H. Sargent Post No. 20, G. A. R., Woman's Relief Corps, and the Soldiers' Aid society.

The procession went north on Jackson street to Milwaukee street; west on Milwaukee street to High street; north on High street to Ravine street; west on Ravine street to Terrace street; north on Terrace street to Oak Hill cemetery. By taking this route the street car tracks were avoided. The active pall bearers were members of Co. E and the honorary members from Co. A.

The pall bearers were: Corporal Thompson, and Privates Rance, Chamberlain, Wood, Knight and Whitford.

Mrs. Thomas Connell

Last evening at 11 o'clock Mrs. Thomas Connell passed peacefully to rest at the home of her son, Lawrence J. Connell, on Eastern avenue. Deceased has resided here for more than fifty years, and was ninety years old at the time of her death, which was caused by the infirmities incident to old age. She leaves a son, at whose house she has lived for some years past, and a daughter, Mrs. George Viney, who is a resident of this city.

The funeral of Mrs. Ellen Connell will take place Saturday morning at 9:30 at St. Patrick's church, and the interment will be in Mount Olivet cemetery.

Maggie VanKueren

Mr. and Mrs. J. R. VanKueren, of McKee boulevard and Eastern avenue were yesterday afflicted by the death of their infant daughter, Maggie. The little one was ill but a short time, and though so young had made a place in the hearts of her parents. The funeral will take place tomorrow.

Services will be held from the home tomorrow afternoon at 2 o'clock and from St. Patrick's church at 3:30.

WIND CREATES HAVOC

Terrible Cyclone Sweeps over the Barbados, Causing Immense Damage.

London, Sept. 15—[Special]—Advices received here this morning show that the first reports of the cyclone in the Barbados were not exaggerated. The estimates of the loss of life given in last night's report are believed to be far below the actual number killed. The number rendered homeless is far more than twenty thousand. When the storm struck the Barbados the British gunboat Alert steamed out to sea to escape being wrecked. The British ship Leanda, the American bark Lapland and a large number of smaller craft were lost. It is impossible to get anything like details.

ILLINOIS COUPLE ARE MARRIED HERE

EVENT SOLEMNIZED THIS AFTERNOON

Both Bride and Groom Are Prominent And Well Known In Their Respective Homes—Ceremony at Agent Gleason's Fifth Avenue Home—Other Matrimonial Events.

At the Fifth avenue home of Mr. and Mrs. A. M. Gleason was solemnized this afternoon the marriage of Miss Blanche Hinds, of Davis, Ill., and T. H. Longley, of Chicago. Rev. W. A. Hall, of Court Street Methodist church officiated, there being only relatives and a few invited guests present.

The bride and groom arrived on the noon train, and were at once driven to the home of Mr. Gleason, who is local agent for the Chicago & Northwestern railroad. After the tying of the nuptial knot the happy couple were the recipients of hearty congratulations. A wedding repast followed, and this evening Mr. and Mrs. Longley will leave for the north on a brief wedding tour.

A Well Mated Couple The bride is a most worthy young lady, possessing all the qualities of the perfect woman. She is held in the highest esteem at her home, where she numbers her friends by the score. The groom is agent for the Chicago & Northwestern road at North avenue, Chicago. For several years past he has been in the employ of the road, and is regarded as one of their most trustworthy men. He has frequently visited in this city, where he is well known.

Mr. and Mrs. Longley will make Chicago their home, and will carry with them the best wishes of a host of friends.

Spicer Holmes.

At the home of the bride's mother, Mrs. De Mott Van Valen, No. 11 Milwaukee avenue, yesterday, Daniel Spicer, of Delavan, and Miss Nellie Holmes were united in marriage by Rev. Robert C. Denison. The house was beautifully decorated for the occasion. The bridal party on entering the parlors were preceded by Miss Isabel Farr as flower girl, and Arthur B. Stevens, the ring bearer. Miss Jennie Clark, Julia Clark, Jennie Spoon, Nettie Harrington, Nettie Hall and Katherine Shoppell were the charming attendants of the bride. The groom was unattended. A considerable number of the friends of the young couple were present.

After the ceremony the wedding party repaired to the adjoining home of Mr. and Mrs. Charles D. Stevens, where an elegant wedding feast had been prepared, the decorations of the tables being especially fine.

The bride, the daughter of Mrs. De Mott Van Valen, is well known in Janesville society, and has been prominent in the work of the Congregational church. She has made herself well nigh indispensable, and while all her associates will regret her departure from the city, they will unite in wishing her great joy in her new home. The groom is prominent in Delavan business circles, being the owner of a creamery there.

The young couple will take a brief wedding trip, and then go to Delavan, where they will make their future home.

Holleran Collins.

Yesterday morning at St. Mary's church Michael Holleran and Miss Mary Collins were united in marriage, Rev. Father Goebel performing the ceremony. The attendants were Miss Maude Fellows, who acted as bridesmaid, and George Collins, who was best man. The bride, a daughter of Mr. and Mrs. Hugh Collins, is well known and highly esteemed here, while the groom has a promising future before him. The young couple will begin housekeeping at once. They will have the good wishes of a large number of their friends and acquaintances.

Boss-McCarthy.

The marriage of Frank Boss and Miss Maggie McCarthy, of Porter, was solemnized in Edgerton Tuesday. Rev. Father Harlan was the officiating clergyman. Both young people are popular in the neighborhood of their residence, and have been the recipients of warm congratulations. The groom is manager of the Porter creamery, and the bride is a sister of D. E. McCarthy, of this city.

END THEIR TROUBLES

Suicide of Two People Follow the Murder of a Child at Louisville Today.

Louisville, Ky., Sept. 15—[Special]—Joseph Villiers and Nellie McGuffin, his paramour, shot and killed themselves in a hotel this morning after giving poison to Villiers' eighteen months old baby, by a deceased wife. All three are dead. Villiers and the woman quarrelled and determined to end their troubles by killing themselves.

Very fancy Concord grapes 13 cents basket. Sanborn.

WILL KEEP THE ISLANDS

Philippines Will Be Retained As Prizes of War

COMMISSIONERS WILL DINE WITH PRESIDENT TONIGHT

Washington, Sept. 15—Special—Indications multiply that an alliance has been tacitly agreed upon between the United States and Japan, and that the two nations will act in concert for the control of the commerce of the orient. Japan's wishes in regard to the disposition of the Philippines have been consulted by the president, and he has been assured of the support of that government before deciding upon a policy. It is believed that close relations between the two governments will result in mutual advantage far-reaching in its results.

Want Annexation.

Havana, Sept. 15—Special—A great political agitation is imminent. The annexationists are widely circulating a petition addressed to President McKinley asking the United States to annex the island immediately. The petition is being urged by merchants, sugar planters and wealthy persons. Certain groups of Spaniards are fighting the scheme on the ground that American enterprise in case of annexation would force local merchants out of business. The will vote for independence.

The Evacuation of Porto Rico.

San Juan, Sept. 15—Special—It was announced after this morning's meeting of the evacuation commissioners that the substantial points under discussion have been agreed to. The departure of the Spanish war vessels was really the beginning of the evacuation. The departure of troops will follow as soon as it is possible to secure transports. Troops are coming from the inland towns, but the outposts are still being maintained.

The Miles-Alger Dispute.

Washington, Sept. 15—Special—Gossip in regard to the strained relations between Miles and Alger is renewed by the publication of Shafter's official report. The fact that he failed to refer to Gen. Miles except to note his arrival is causing comment.

To Abandon Philippines.

London, Sept. 15—Special—A Madrid dispatch says a majority of the politicians favor the entire abandonment of the Philippines, hoping that Spain will secure in exchange valuable economic advantages.

Surrender of the West Indies.

Madrid, Sept. 15—Special—The officers of the chamber of deputies yesterday presented to the queen regent for her signature the bill surrendering the Spanish possessions in the West Indies.

Going to Manila.

Washington, Sept. 15—Special—Secretary Long officially announces that the Iowa and Oregon are going to Manila.

Zola Will Issue Another Manifesto—Papers In the Case Were Suppressed

Paris, Sept. 15—[Special]—The Echo says Zola will return to Paris in October, when he will issue another manifesto on the Dreyfus case.

Le Matin says the ministers have definite proof that the secret documents that figured in the original Dreyfus trial were not shown to the accused nor his counsel.

London, Sept. 15—[Special]—A Paris dispatch says the cause of the tardiness of the ministers in reaching a decision in the matter of a revision of the Dreyfus case was the fact that they did not wish to incriminate General Mercier, ex-minister of war, whose illegal conduct in communicating secret evidence to the judges of the court martial is firmly established.

CAN'T KILL DUCKS IN OPEN WATER

GAME LAW CHANGED BY THE REVISERS

Section Now Puts a Ban On Any Boat When Used Outside of the Natural Caves and Defines a "Sneak Boat" Clearly—Fish In Rock County.

Some important changes were made in the game laws when the statutes were revised. Under the law as it now stands, a "sneak boat" is clearly defined, and the use of any boat in the pursuit of ducks in the open air is prohibited.

The law now allows all fish, except trout, to be caught in Lake Koshkonong, Rock and Sugar rivers, with hook and line, at any time.

A provision in the law also declares any article—such as nets, spring guns, boats, etc., when used illegally, public nuisances, and authorizes their confiscation and destruction.

The chapter referring to fishing in the waters of Rock county, and the "sneak boat" section, are as follows: Fish in Rock County.

No closed season where—Section 4562. It shall be lawful to take or catch any kind of fish, except trout, in the waters of the Pecatonica and Fever rivers in Iowa and Lafayette counties, in the Sugar river in Green county and from Koshkonong lake and Rock river in Rock, Dane and Jefferson counties and from Crawfish river in Jefferson county, with a hook and line at any time.

How to Hunt Ducks.

Prohibited methods of hunting—Section 4563. Any person who shall use, in the pursuit of any wild duck, goose, brant or other aquatic bird, upon the waters of this state any sneak boat, or boat propelled by an oar or oars operated from the stern of such boat, or any sail boat or boat propelled by steam, naphtha, electric or other engine or machinery, or any battery, sink box or similar device, or any boat except a row or paddle boat propelled by an oar or oars operated from the side or sides of such boat, or who shall kill or attempt to kill or to pursue, while occupying or using any boat box or other device outside or beyond the natural covering of reeds, grass or other vegetation growing above water, any wild goose, duck brant or other aquatic bird, or who shall construct or use for the purpose of hunting, outside of such natural covering, or upon the ice any fixed or artificial blind or ambush shall be punished by a fine of not less than ten dollars nor more than fifty dollars, or by imprisonment in the county jail not more than thirty days or by both fine and imprisonment.

CHARMED BY A PHOTOGRAPH

Pennsylvania Merchant Wants to Marry a Rockford Girl

The Parker Pen company of this city, it will be remembered, recently offered a prize for the photograph of the handsomest girl in the land. Of the photos received and accepted as being worthy of note was one from a fair Rockford young lady.

When her picture in one of the circulars reached Jermyn, Pa., and fell into the hands of a rich stationery dealer, little Cupid with his bow and arrow at once got in his work on the Jermyn merchant. He sat right down there and then and wrote the local firm a lengthy letter that would take a first class typewriter two days to copy. He stated that he wouldn't do a thing in the world till he married that Rockford girl and that if it was necessary he would spend a good share of his fortune in carrying out his desire. His letter ended with a pathetic plea to the Parker Pen company to at once open correspondence with the young lady and lay the entire matter before her and see what she thought of it. His request has been complied with and an answer is now anxiously awaited.

Dun and Bradstreet quote the Jermyn lover as being an A. No. 1 business man worth \$100,000.

Uniper & Brothers.

Day after day regiments are arriving in New York city or Montauk, returning from the war or from camps in the south, and from either of these two points regiments are departing day by day returning to their homes. As a result the people of New York city are witnessing such sights as are illustrated in the accompanying cut from Harper's Weekly of this week, as they go to and from their business offices.

Three months ago we watched the regiments march by on their way to

southern camps with their full complement of officers and soldiers. If they returned now with their files decorated by the absence of those who had been killed or wounded in battle, it would still be a sad but nevertheless an inspiring sight, but when a regiment returns with less than half of its command, and when those who do return, or most of them, are unable to walk three or four miles through the city street, and have to be carried in large barges because they are so ill with fevers con-

tracted in camps within the United States, the sight rather excites the anger of the citizens of the United States than their enthusiasm and pride of the soldiers—anger at the incompetency of the war department and the officers whom they have appointed to take charge of the feeding and clothing of the United States army. The same sights may be seen on the transports arriving day by day, and the less miles through the city street, and have to be carried in large barges because they are so ill with fevers con-

Terribly Afflicted

Little Girl Could Hardly Breathe Owing to Catarrh

Hood's Sarsaparilla Cured Her and Her Worn Out Mother.

"My little girl was terribly afflicted with catarrh and she could hardly breathe at night. She took many different medicines without benefit and we became almost discouraged. One day I read an advertisement of Hood's Sarsaparilla and concluded to try it. She began taking it and was soon relieved. I believe she is now permanently cured, as she has not been troubled with catarrh for some time. I was run down in health myself and suffered constantly with backache, and felt all worn out. I thought Hood's Sarsaparilla might help me and I began taking it and it has cured me. I have not had any return of the lameness in my back or tired feeling." Mrs. A. H. ALLMAN, Medford, Wisconsin. MR. SAWYER'S VIEWS.

Philetus Sawyer has been quoted as endorsing ex-Congressman Cook for United States senator, but says that such is not the case. In an interview he speaks as follows:

"No; I have no preference to express as to a candidate for United States senator. I do not deem it wise to discuss the question of candidates for senator until after the election. We shouldn't trade the horse until we have bought him, as the expression goes.

"No; I did not say, as was reported, that I favored Mr. Cook for senator. That was a mistake. What I did say was that if Mr. Cook were a candidate, I thought Winnebago county should support him, he being a Winnebago county man. But I do not think that preferences should be expressed before the election. There are a number of excellent men in the field, I believe. Is Mr. Babcock a candidate? Yes; I think he is. I understand Mr. Quarles and Isaac Stephenson are also candidates."

The Milwaukee Sentinel accused the Oshkosh Northwestern of stealing war news, and The Northwestern retaliates by charging The Sentinel with passing off Northwestern clippings as special telegrams to The Sentinel. The latter paper has been pretty free in crying "stop thief" of late evidently forgetting the old adage concerning the residence built of glass—and also the size of the field The Sentinel is supposed to cover.

Even General Pando seems to have become a victim of the yellow paper. The general denies that he criticized unfavorably Gen. Shafter's qualities as a soldier, and says interviews credited to him are not true. Gen. Pando declared that he thought Gen. Shafter an able general, and he doubted if any other man could have brought the Santiago campaign to such a speedy close with such little bloodshed.

S. G. Bond's services in military hospitals during the civil war, qualifies him to speak on that subject. Mr. Bond's report on the Jacksonville hospital conditions may therefore be accepted as a true statement of the case and will reassure Janesville people who have relatives under the care of the medical staff at the camp.

It is now announced that the war department, in order to keep the regular army up in the maximum, will have recruiting officers at all stations where volunteers are mustered out, with a view of giving the men an opportunity to enlist in the regular service.

The new legislation will be required to authorize the payment of pensions to the soldiers who were disabled in the war with Spain, and the widows and minor children of those who died from wounds or disease.

The value of a crop of whiskers is soon to be set by a legal decision. A New York man claims \$10,000 damages because of the destruction of his hirsute adornment by an X ray.

Gen. Gomez's statement that the Americans are "cold and dry" would seem to call for some explanation.

Oklahoma negroes have lynched a white judge of a Federal court, and a race war rages in consequence. While the proceeding in the case is reversed, the result seems to be the same.

The statement that Mrs. Mary Mazique, who died recently in Little Rock, Ark., weighed over 700 pounds is doubtless an error. Her name was probably "Physique."

President McKinley favors the suggestion made by the czar of Russia for the disarmament of the nations of the world.

In imposing a tax on charity, the Spaniards again showed their true character.

But in extenuation it may be said that Col. DuPaty couldn't help being a Olam.

JOINT AFTERNOON RECEPTION

Mrs. B. B. Eldredge and Barlass Entertain Their Friends

Mrs. B. B. Eldredge and Mrs. John Barlass were the hostesses at a most delightful social function given this afternoon at the East street home of Mrs. Eldredge. The function was in the nature of a ladies' afternoon reception, the hours being from 2 to 6.

Two hundred and fifty invitations had been issued, and on account of the ideal afternoon but few regrets were received.

The interior of the spacious dwelling was tastefully trimmed with potted plants, cut flowers and amilies, giving it a handsome appearance. Refreshments were in order, and the afternoon was most delightfully spent, reflecting much credit on the hostesses in charge.

DID NOT FIND A POT OF GOLD

John A. Connors is Back From the Alluring Region of British Columbia

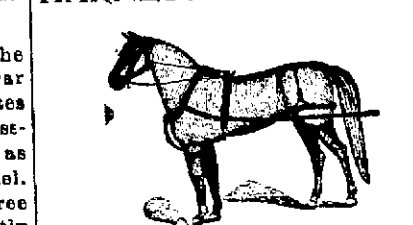

John A. Connors, of this city, who left here last April to seek his fortune in the gold regions of British Columbia, has returned home minus the gold that he hoped to lay hands on. Nevertheless he is not in the least discouraged, and hopes that some day he may again try his luck.

The region into which Mr. Connors went is a gold bearing one in many parts, and has during the past few months attracted prospectors from all sections of the globe. Many rich finds there this year, and many a poor man has made his fortune, while many others have been in luck to get out alive.

Mr. Connors is looking the picture of good health, and his host of local friends are once more glad to welcome him home.

Prof. Harrie Will Stay Until Sept. 25.

HIS GREAT SUCCESS IN JANESVILLE HAS LED THE PALM READER TO DETERMINE ON A LONGER RESIDENCE HERE

For the convenience of his visitors he has removed his parlors from the third to the second floor of the Wilcox Flats on East Milwaukee street, and now devotes his mornings to lessons in palmistry and his afternoons and evenings to life readings. Each day Prof. Harrie receives fresh demonstrations of the appreciation of his patrons. Several in Janesville have him to thank for important revelations as to business aptitude and life prospects. His readings as to happy and unhappy married life are marvelous and his insight into character as revealed by the lines of the hand arouse universal attention. From other cities come grateful letters as to his successful readings.

Mrs. F. M. DeHart, Of 119 Hough Ave., Cleveland, Ohio, writes, recalling forecasts made by him which have been verified with singular fidelity. Troubles which he forecast when in Cleveland have come into her life just as was predicted. She asks that he consult the tracing of her hand and tell her what relief may be expected.

Prof. Harrie must not be confounded with the so-called clairvoyants who live by imposing on the ignorant and superstitious. He is as different from them as day is from night. He is a scientific palmist of education and refinement and does not bend himself to the low and petty ways, fraud and chicanery that are used by the many humbugs that infest every large city and prey upon the gullible. He is fair, square and honorable and our advice is to go and see him and investigate. We can assure all interested in knowing their future and their mistakes of the past and present that he can tell them accurately and truthfully. They will not only be surprised but astounded at his wonderful skill as a palmist. The Professor has a standing offer of \$100 for any hand he cannot read. He makes a specialty of teaching palmistry and his terms are very reasonable. We commend Prof. Harrie to all our readers, and from what we know of him can assure them that he will read their palms with the utmost accuracy, and astonish them by his wonderful skill, knowledge and power as a palmist.

Prof. Harrie, the eminent French Palmist, Wilcox Flats, East Milwaukee street, second floor. Hours, 1 to 8 p. m. Mornings by appointment.

HOW THEY WILL BE MUSTERED OUT

MODUS OPERANDI PRESCRIBED BY WAR DEPARTMENT

Men and Officers Will Be Subjected to A Strict Physical Examination So As to Facilitate the Settlement of Future Claims For Pensions—Rules To Be Observed.

Adjutant General Corbin has issued an order governing the mustering out of volunteers. It goes into the duties of officers in detail. The following are the more important features of the order:

Only officers of the regular army will be detailed by the war department to muster out troops.

To avoid expense to the government and hardships and annoyances to individuals concerned, by unavoidable delay that will occur in the final payment of officers and enlisted men absent from their commands on muster duty, commanding officers will make every effort to effect the return of all absentees and detachments prior to muster out of the organization.

Officers who at any time were responsible for public property of any description must obtain certificates of non-indebtedness before their final payment can be made. Officers who have not at any time been responsible for public property will be required to furnish the mustering officer with their affidavits to that effect.

All officers will be held to a strict accountability for the discipline of their commands and the preservation of public property. Mustering officers are empowered to prefer charges against officers who neglect in any manner to take the proper measures to insure the government against loss of property or to keep their commands together under proper discipline. The supply departments of the army will continue to furnish organizations with needed supplies until date of final payment and discharge.

All persons borne on the muster in and on all other muster rolls, and all who have joined or belonged to the organization at any time since its muster in, must be accounted for on the muster out roll, which is required to be a complete record of all the officers and men who ever belonged to the organization.

Discharge certificates will be prepared for every officer and man present and absent, except absent officers and men held in the service by proper authority, and deserters. The certificates will be delivered to the regimental and company commanders.

The discharge of the United States volunteer service in the case of all absentees (except in special cases) will take effect on the date of muster out of the organization. In the case of enlisted men absent, who on account of sickness, are unable to join their commands, the discharge certificates with carefully prepared descriptive lists of account of pay and clothing, giving the address of the soldier, will be given to the mustering officer for transmission with the muster-out rolls, to the adjutant general of the army, and the soldier will be officially notified to apply by letter to the paymaster general of the army for final payment.

Officers absent from any cause will be furnished discharge certificates (unless specially held to service) and will be notified to apply to the paymaster general for certificates of non-indebtedness and settlement of their accounts.

As a rule, the muster out of organizations and their final payment will take place at the state or regimental rendezvous, except when otherwise ordered by the war department. The preparation and completion of the muster-out rolls, returns and papers, and the inspection and transfer of public property to the officers of the supply departments of the army, except as hereinafter provided, will take place before the organization is ordered to its state. The only property that will be allowed to be retained until muster out, unless otherwise ordered by the mustering officer, is the rifles, cartridge belts, cups, canteens, meat cans, knives, forks and spoons, necessary medical supplies and tent equipment, the colors and the regimental and company records.

The supply departments concerned will arrange through the chief commissary and chief quartermaster of the department wherein the state rendezvous is located for meals, camp ground, shelter, transportation and quartermaster's supplies from the time of the encampment of the organization at the state or regimental rendezvous.

As soon as the muster-out rolls have been fully and satisfactorily completed, the mustering officer at the place of departure will fill in the date of the muster out as of a date ten days later, the probable time necessarily required to transfer its organization to its state rendezvous, the making of the physical examination of officers and men, etc.

As soon after the arrival of the organization at its state rendezvous as possible the physical examination of all officers and men will be made before muster out and payment, so as to facilitate the settlement of pension claims that may be made on account of disability incurred in the United States service, and to protect the rights of persons who may be entitled to the benefit of the pension laws, as well as to guard the interests of the government.

Provision is made for turning over to proper officers' records, colors, ordnance, etc., belonging to the troops to

The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee evening papers sold in this part of the state.

be mustered out, also as to their final payment.

The troops will be allowed to retain certain property, such as rifles and other equipment, by paying a stipulated price for the same.

HAD A GREAT CAKE WALK

Open Window Club Participated in a Fashionable Negro Pastime.

Members of the Open Window club participated in a southern cake walk last evening at the South First street home of Lawrence Doty, and judging from the many southern melodies that filled the air in the vicinity of Wisconsin and South First streets, the event was undoubtedly a decided success.

There were four colored couples in line as follows: Lawrence Doty and Harold Dearborn; Victor Whitton and Star Atwood; Gardner Kavelage and Stowe Lovejoy; Charles Dearborn and Harold Hall.

Through the generosity of Kramer Doty, a cake the size of a good sized wash tub, was on hand to be contested for. With Miss Maretha Jackson at the piano the participants entered, decked in all the bright colors favored by the colored populace. After a half hour's walk the judges awarded the prize to Lawrence Doty and Harold Dearborn. A love feast brought the walk to a close.

SAY HE STOLE A WATCH

Benjamin Dixon Charged With Appropriating Lohrmann's Timepiece

Benjamin Dixon is occupying a cell in the Rock county jail charged by the police with the larceny of a silver watch from the person of O. A. Lohrmann, a resident of this city. According to the complaining witness the watch was taken from his person on the night of Sept. 5.

Lohrmann says that he attended the Labor Day picnic up the river and as night came on he was overtaken with that tired feeling, and instead of going home to bed he lay down on the ground and went to sleep. When he woke his watch was gone. He didn't know who stole it but the police say that the timepiece was pawned here in town and that Dixon knows about it.

In the municipal court this morning the prisoner appeared for examination and his case was adjourned till Sept. 19. In default of \$350 bail he is in jail.

Mr. More was declared the nominee, and accepted in a short speech.

TWO FREIGHT CARS WRECKED

Accident in the St. Paul Yards Causes Trifling Damage.

Two freight cars belonging to the Chicago, Milwaukee, & St. Paul railroad met their fate in short order this morning at 9 o'clock in the yards. While switching a number of cars on a side track, near the West Milwaukee street crossing, a brake on one of the flat cars dropped to the ground, planting itself deep in the earth. This sudden change in the program threw both cars off the track, piling them in a heap. The wrecking crew was soon on the scene and matters were straightened up in short order. The damage is slight.

FAST CROWDS HERE GREET THE FOURTH

TWO SPECIAL TRAINS FROM CAMP DOUGLAS

Fully One Thousand At the Depot Last Night to Welcome the Boys—All Were a Healthy Lot—Arrived in Two Sections—Alabama Their Destination.

When the two special trains bearing the members of the Fourth Regiment Wisconsin Volunteer Infantry pulled into the city last evening, one but the deaf need to have been told of the fact. No sooner had the first section entered the city limits and come to a stop on the upper railroad bridge than yells filled the air that soon aroused the whole town.

It was the soldiers themselves that were responsible for these Indian yells as delighted were they to think that they were on their way to the south after being quartered at Camp Douglas the greater portion of the summer. All in Good Spirits

The first section arrived at 7:30 o'clock over the Chicago & North-western road. At the depot fully a thousand people were on hand to greet the boys in blue. When the train pulled up to the station the soldiers were all at the windows to shake hands with the men, and only too anxious to kiss all the girls in sight. The reception that awaited them here, they said, was the best they had seen since breaking camp, and as the train pulled out they gave three rousing cheers for Janesville.

Between 8 and 9 o'clock the second section entered the city, and the vast crowd, knowing of its coming, greeted its arrival in the same cordial manner.

Of all the soldiers that have passed through this city since the breaking out of the American-Spanish war, it is doubtful if ever a more healthy and happy lot have entered Janesville than those that arrived last evening. They were all the picture of health, and were as brown as the sun's rays could make them. Their summer outing at Camp Douglas has put them in the pink of condition, and as one of the men said, "we are even fever proof."

The soldiers were comfortably quartered, and the railroad company had neglected nothing that would add to their comfort.

Plenty of wholesome food was on hand, and along the line hot coffee has been ordered so as to await them at every meal.

At the depot last evening were a large number of relatives and friends of the boys, who had come all the way from Green Bay, Platteville, Viroqua, and Stoughton to see their loved ones. Thir time here was short, and after a stay of about fifteen minutes the trains pulled out amid the shouts from the assembled crowd.

The companies were from Stevens Point, Viroqua, Green Bay, Washburn, Platteville, Stoughton and Merrill and were on their way from Camp Douglas to Anniston, Ala., where they will camp and await further instruction from the government.

THINK THE DANGER IS OVER.

Washington Pleased with Report from Madrid.

SETTLEMENT CLOSE AT HAND.

General Line of Policy Is Believed to Have Been Agreed Upon by President McKinley and His Cabinet—No Information Given Out.

Washington, Sept. 15.—In official quarters much satisfaction is expressed over the reports from Madrid that the lower house of parliament had passed the government bill accepting the terms of the protocol. The upper house already has passed this measure, so that the last fear of legislative opposition to the transfer of Cuba, the Ladrone and Porto Rico is over. The authorities here feel that this carries them by a danger point, as it has been feared for some time that the animosities in the Spanish cortes would lead to the defeat of the Sagasta ministry on the question of evacuating the Spanish islands either in one branch or the other.

There is little doubt that a general line of policy has been agreed upon between the president and his cabinet, but there is good reason for believing that the assertion that the decision was definitely in favor of not permitting Spain under any conditions to retain sovereignty in any part of the Philippine Islands is based on a misconception. As the members of the cabinet and members of the peace commission refuse absolutely to discuss the subject with newspaper men, whatever is said is based more or less on inference or roundabout information.

It is not doubted that the commission will start the negotiations at Paris with the assertion that we have conquered Spain in the Philippines and that Spanish sovereignty has already been forfeited there. This will not, however, necessarily signify that it is the purpose of the administration to retain possession of the entire group of islands or to permanently deprive Spain of all her possessions in the Pacific.

It is not believed that the administration has gone beyond the determination to retain the whole of the island of Luzon, but it is understood to be the intention of the president to establish at the outset the right of this government to determine the fate of the islands and to make the conditions under which government shall be established there.

The matter of relinquishing possession of the rest of the islands is involved with so many conditions to be considered that it is realized that it may by force of circumstances become necessary to deprive Spain permanently of all her possessions in that quarter. It is understood not to be a matter of policy to acquire all this territory, but it may become a necessity.

Sagasta in Trouble.

Madrid, Sept. 15.—The Spanish soldiers returning from Cuba have been received in several cities with cries of hurrah for the men, but many shouts of "Death to the chiefs." The government is watching closely the several generals. Serious trouble is certainly brewing. The government is preparing to use very severe measures and will throw into prison many republicans and Carlists. A military revolt is feared in Catalonia and the Balearic islands. The government has confidence only in the Madrid garrison.

Meet the President Today.

Washington, Sept. 15.—The members of the peace commission, Messrs. Day, Davis, Frye, Reid and Gray, meet the president today, when their instructions will be discussed at length.

It is expected the cabinet at its regular session Friday will again consider the instructions for the peace commission. The latter sail from New York on Saturday and under the terms of the protocol are to meet the Spanish commissioners at Paris not later than Oct. 1.

Sixth on the Way Home.

New York, Sept. 15.—Unexpected orders to move sent the Sixth Illinois on the trip homeward last night, the last section leaving the West Shore yards at Weehawken, N. J., at 5 o'clock. The regiment was transported on two sections of twelve coaches and two baggage cars each, which will be switched at Buffalo to the tracks of the Nickel Plate, over which road the run will be made to Springfield, where the troops will be mustered out of the service of the United States.

Troops May Go to Hawaii.

Washington, Sept. 15.—Gen. Corbin said yesterday that Gen. Merriam would arrive at San Francisco from Honolulu about Sept. 20, and then it would be decided whether a large body of troops would be sent to Hawaii. If the troops are taken to Honolulu they will be much nearer Manila when needed there, if that occasion should arise, than if held at San Francisco. Transports would be held there with the troops.

THE SURGEON'S KNIFE

Once Believed to Be the Only Cure For Piles and Rectal Diseases.

A Better Way Now Discovered Which Cures Every Form Of Piles Without Pain Or Inconvenience.

Many people suffer the pain, annoyance and other serious results from piles, for years, and after trying the many lotions, salves, ointments and many so-called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger to life which a surgical operation involves.

Happily all this suffering is no longer necessary since the discovery of the Pyramid Pile Cure, a remedy which is approved by the medical profession as being absolutely safe, free from any trace of opiates, narcotics or mineral poisons and which may be depended upon as a sure cure, (not merely relief) in any form of piles, whether itching, blind, bleeding or protruding. Some of the hundreds of cures recently made are little short of marvelous as a personal of the following will demonstrate.

Major Dean of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure. I suffered from piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Dr. J. W. McLean, Leonardville, Kan., writes: "I have used a box of Pyramid Pile Cure and received more benefit and relief than from any other remedy I have used in the past twenty years."

James Jamerson, Dubuque, Iowa, says: I suffered for six years; have just used the Pyramid Pile Cure and am a well man.

Mrs. M. O. Hickley, 601 Mississippi street, Indianapolis, Ind., says: Have been a sufferer for fifteen years, the Pyramid Pile cure and Pyramid Pills gave me immediate relief and in short time a complete cure.

The Pyramid Pile cure may be found at druggists at 50 cents and \$1 per package. A book on cause and cure of piles will be sent by mail by addressing the Pyramid Drug Co., Marshall, Mich.

New Fall Suits!

Copyright 1897 by The Stein-Bloch Co.

Made up in double and single breasted, in blue serge, the most popular of all fall goods; cashmeres and chevots. These suits are made by the most famous clothing manufacturers in the United States. They sell at from . . .

\$15 to \$20 and compare with the \$30 and \$35 made to order clothing of the custom tailor.

Copyright 1898 by The Stein-Bloch Co.

THERE IS NO COMPARISON

Mind you between these suits and the cheap, thrown together, made to measure suits. The clothing we offer this fall at \$15 to \$18 contains every point that is found in the best tailor made garments. The linings, for instance, we guarantee the entire season. If a thing happens to linings we replace them free. It's a hard matter to change the prejudice of the tailor made suit man against ready-to-wear clothing. They forget there has been a radical change in the past few years in the way of making up clothing, and they cling to the idea that what was, still continues. Don't confuse these goods with the cheap, grades of ready-to-wear suits. The suits we are speaking of are made to compete with tailor made suits, and our word for it, they are successfully doing so. We are selling each season more of these high class suits to tailor suit men—converting them, so to speak.

We can do the same with you if you give us half a chance. It means a sight of money saving for you if we can. We press these suits whenever you want them, free.

C. H. TOWNE LEADS IN DEBATE

Senator Allen and Ex-Congressman
Towne Address the Monetary Conference
in Favor of Bimetallism—Ex-
Senator Carey Speaks.

Omaha, Neb., Sept. 15.—Ex-Congressman Towne, chairman of the silver republican national committee, called the monetary conference to order Wednesday.

M. L. Crawford, who was to have spoken for the gold standard Tuesday, but did not reach Omaha in time, read his paper. Mr. Crawford said in part: "Fairly stated, the question to be first determined is this: Shall this country maintain the single gold standard, using at the same time as much silver in our currency as the necessities of business and the convenience of the people require, or shall we adopt the single silver standard and drive gold from our monetary system? The real issue, therefore, is between a single gold standard, with silver as a subsidiary coin, and a single silver standard, with gold as a commodity. We must take one or the other or abandon a metallic currency altogether. When the advocates of the free and unlimited coinage of silver at an arbitrary rate fixed by law point to a single instance in the history of modern times where gold and silver ever kept company with each other except on the inflexible rule of equality in value it will be time enough to ask and expect the people of this country to discard the lesson learned from the experience of all mankind and accept their financial theories."

At the close of Mr. Crawford's address Chairman Towne called Senator Allen of Nebraska to the chair and proceeded to deliver the address assigned to him on the programme. Mr. Allen, on taking the chair, spoke briefly in behalf of the silver contention. He said: "I cannot conceive how a man can be a gold monometallist who wants justice and wants to see men enjoy the fruits of their labors. If a man desires to see a small volume of money and the resultant spoliation of business by the creditor class I can understand why he will defend the gold standard. I wish this debate could be repeated in every city, village and hamlet in the country; but to me it is hard to conceive that there should be any controversy over what constitutes money. Money is a creation of law, and this has been the doctrine of all authorities on finance from Aristotle to the present day."

Mr. Towne said in part: "Whatever else money may be defined to be, it is purchasing power. Referred to a particular commodity, this purchasing power expresses itself as the price of that commodity. But the purchasing power of money extends to all commodities. It can therefore be truly expressed only by reference to all commodities. In other words, the purchasing power of money is indefinable except in terms of average prices. Monometallists take the bank-counter view, the mere physical simplicity view, while bimetallists take the other—that of the essential meaning of money as measuring other things, with its ultimate and intimate ethical and social significance. Stability of value, or the nearest practicable approach to it, is the test of goodness in money."

"The indisputable and portentous fact of the tremendous appreciation of gold is the central point of this great controversy. Rightly apprehended, it is alone absolutely destructive of all claims on the part of the gold standard to be considered a satisfactory money system. Any such claim is confronted with the insuperable fact that during the existence of that system it has given the gold-using world a most unstable measure of value, one that has nearly doubled in twenty-five years. The gold standard and permanently higher prices are impossible computations. The continuance of that system means a continued increase in the purchasing power of the dollar and, which is identically the same thing, a protracted fall of general prices."

Ex-Senator Carey of Wyoming followed Mr. Towne in advocacy of gold as the monetary standard. Mr. Carey, among other things, said: "The gold standard is the standard of the United States; it is truth is the standard of the world. In the few countries where it has not been so made by positive enactment it is there no less the standard than if it was made so by written law. The further we make inquiry with reference to the standards of money I believe the more firmly convinced we will be that a law of nature has determined the value of gold as the money standard."

The principal speakers at the afternoon session were George Fred Williams of Boston, an ex-congressman, and Congressman C. N. Fowler of Elizabeth, N. J. Williams was the first to speak. His conversion to the silver theory he attributed to a philanthropic reason involved in what was to him a great question. He pictured a gloomy industrial and agricultural condition in Europe, quoting from the reports of Secretary Dredge of the English labor commission, and statements made by Minister Mellie of France, and others. He was followed by Anson Wolcott

of Indiana, who reviewed financial legislation with a purpose to show that it had been destructive of the circulating medium; Judge Joseph F. Sheldon of Connecticut, who upheld the quantitative theory of money, and President Thomas B. Wills of the Kansas Agricultural college, who discounted the value of academic opinions on economic questions generally. Then Congressman Fowler occupied the platform for half an hour with a defense of the gold standard.

Sons of Veterans Elect F. L. Shepard Commander-in-Chief.

Omaha, Neb., Sept. 15.—The Sons of Veterans in national encampment named Col. Frank L. Shepard of Chicago for commander-in-chief Wednesday. When his name was proposed a great wave of enthusiasm swept over the body and all other candidates were forgotten.

Shepard is a lawyer and the first assistant attorney for Cook county. The other officers are: Senior vice-commander, George E. Cox of Connecticut; junior vice-commander, C. Z. Green of South Dakota; quartermaster-general, Fred Boulton of Massachusetts.

Detroit was made the next place of meeting. Senator Thurston addressed the encampment and was made a life constitutional member.

Hopeful Words to Childless Women.

The darkest days of husband and wife are when they come to look forward to a childless and desolate old age.

Many a wife has found herself incapable of motherhood owing to some great lack of strength in the organs of generation. Such a condition is nearly always due to long continued neglect of the plainest warnings.

Frequent backache and distressing pains accompanied by offensive discharges and generally by irregular and scanty menstruation, indicate a nerve degeneration of the womb and surrounding organs, that unless speedily checked will result in barrenness.

Read Mrs. Wilson's letter:

DEAR MRS. PINKHAM:—No one could have suffered from female troubles more than I. I had tumors on the womb, my ovaries were diseased, and for fifteen years I was a burden to myself. I was operated upon three different times, with only temporary relief; also tried many doctors. Lydia E. Pinkham's Vegetable Compound was recommended to me by a lady friend, and after taking four bottles I was like a new woman. I had been married nine years, and had no children. I now have a beautiful little girl, and we feel assured she is the result of my taking the Compound.—MAY B. WILSON, 323 Sassafras St., Millville, N. J.

Modern science and past experience have produced nothing so effective in treating diseases of the female organs as Lydia E. Pinkham's Vegetable Compound and Sassafras Wash used according to special directions.

If you know any woman who is suffering and who is unable to secure relief, or who is sorrowful because she believes herself barren, tell her to write to Mrs. Pinkham, at Lynn, Mass., and ask her advice. The thousands of Mrs. Pinkham's cures are all recorded for quick reference, and a reply will be promptly sent wholly without charge, that will direct her what to do.

Mrs. B. BLUM, 4940 San Francisco Ave., St. Louis, Mo., writes:—"It has been my great desire to have a babe. Since taking your medicine my wish is fulfilled."

Appalling Loss of Life Also Reported to Have Been Caused by a Hurricane in Barbadoes—Tidal Wave Sweeps the Island of St. Lucia.

St. Thomas, Danish West Indies, Sept. 15.—A boat from the island of St. Vincent, 100 miles west of Barbadoes, arrived Wednesday at the island of Grenada and reports that St. Vincent has experienced the most violent and destructive cyclone ever known there. Kingston, the capital of St. Vincent, is totally destroyed. It is estimated that 300 lives have been lost in that island, and that 20,000 people are homeless. The bodies of the dead are being buried in trenches. Thousands are starving or being fed at the public expense.

The amount of property destroyed in St. Vincent cannot yet be estimated. Every small house is down and many large ones have been destroyed. The demolished buildings include churches, stores and almost all the estate buildings. Three large ships are ashore on the Windward coast, and many smaller vessels are stranded.

No information is obtainable here as to the results of the threatened hurricane of Saturday night last. Communication is cut off and the worst is feared.

According to the latest reports from St. Lucia the storm which broke upon the island Sunday night developed almost unprecedented velocity, being accompanied by a tidal wave and tremendous rains. Numerous landslides were caused and many houses, bridges and cocoa estates have been destroyed. Guadeloupe, the French island in the Leeward group, has experienced very heavy weather. Nineteen deaths are reported and there have been destructive landslides.

Hurricane Sweeps the Barbadoes.

London, Sept. 15.—Advices have been received here saying that a terrible hurricane has swept over Barbadoes, in the Windward group of the Lesser Antilles. Two hundred persons have been killed and 40,000 rendered homeless.

MORE NEGROES GO TO PANAMA.

Citizens Are Roused and Scared by the Importations of Miners.

Pana, Ill., Sept. 15.—Three cars, containing 200 negroes from Alabama, arrived in Pana last night to supplant the union white miners in the mines of the Pana, Springdale and Peawell coal companies. The union miners made no demonstration, although several hundred were at the station as the train came in.

The citizens denounce the action of the operators in bringing in more negroes, and an uprising is threatened. Some of the business men have signified their intention of leaving the city as soon as arrangements can be completed.

Negroes from the Springdale camp paraded in business streets of the city Wednesday evening. They marched four abreast and all were armed with large revolvers, which they occasionally flourished, scaring many of the residents.

Bank Failure in Michigan.

Sturgis, Mich., Sept. 15.—The village of Burr Oak, situated six miles east of Sturgis, is all torn up and some of its citizens are heartbroken because the private bank there of Daniel F. Parsons has suspended.

Parsons was one of the oldest banks in this part of the state and enjoyed the greatest confidence of its patrons. Mr. Parsons was supposed to be immensely wealthy by every one and able to withstand any commercial storm. Mr. Parsons' capital is estimated at \$100,000. Tuesday the bank received deposits all day and no sign of suspension was hinted. Wednesday morning notices of suspension were posted on the bank.

Funeral of Judge Cooley.

Ann Arbor, Mich., Sept. 15.—The interment of the remains of the late Judge Thomas M. Cooley took place here Wednesday in the presence of a distinguished company from all parts of the state. Gov. Pingree and several members of his official family were among the number. The Rev. Dr. Bradshaw of this city preached the sermon. The body was laid away in Forest Hill cemetery.

Property in Illinois.

Springfield, Ill., Sept. 15.—The statement of property assessed for the year 1898 in the state of Illinois, as prepared for the state board of equalization, shows a total assessment of \$693,443,706, which is \$20,293,193 less than last year. The total assessment on real estate is \$691,586,09, and railroad property locally assessed is \$1,857,015. The total value of personal property is \$114,215,007.

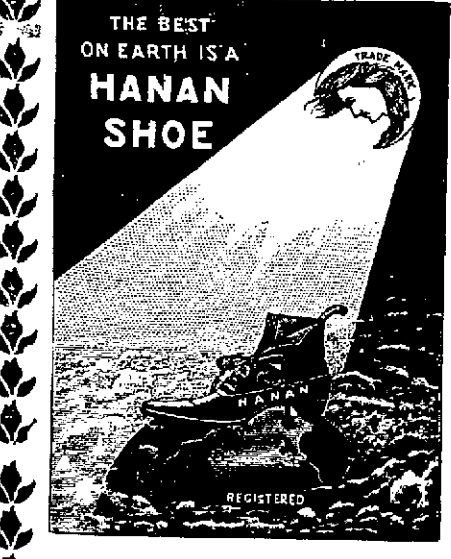

South Carolina Election.

Columbia, S. C., Sept. 15.—Out of a total of 60,870 reported Gov. Ellerbe has a majority of 1,986. The missing vote will hardly reduce this majority, and the governor's friends are now perfectly confident. The other races have not been changed by belated returns.

Senator Kyle Is Stricken.

Cleveland, O., Sept. 15.—James H. Kyle, United States senator from South Dakota, was suddenly stricken with apoplexy Wednesday morning in his room in the Forest City house. His condition is considered serious.

Odd Bits of Work.

Such as cutting an archway, building a window seat, making up some new idea from wood that you have seen in a magazine, putting in a new stairway, adding a few book shelves, laying a new hardwood floor, building a new wing to the house, replacing the old door with a fancy new one, putting on a pretty new porch, and a thousand and one different things about the house that cannot be thought of until the necessity of having them brings them to mind. We make a specialty of this kind of work. We have men who are experienced in it.

Office Refitting

We make office and store fixtures and refit them in any manner. Always glad to give you figures on work of any kind.
